

NorCal Travelers Golf Club

Golf Club Tournament Rules

1. The purpose of this club is three-fold: to establish a handicap with the Northern California Golf Association (NCGA)/United States Golf Association (USGA); to meet people with similar interests; and to have fun!
2. Play ready golf! Stay up with the group in front of you. Every player must do their part to keep play at a regulation pace. NCGA regulations approximate 15 minutes per hole.
3. High handicap members will pick up after 10 strokes and note it on the scorecard in order to keep the tournament on schedule. All other members must play out the hole and record all strokes.
4. If you lose a ball, spend no more than 3 minutes looking for it. If the ball cannot be found in 3 minutes, drop another ball, take a penalty stroke and continue with play. This is necessary to keep up the flow of the tournament.
5. Use winter rules during all tournaments. You can pick up your ball to clean it and move it 6" up to 1 club length but no closer to the hole. If the ball is in a clearly marked out-of-bounds area, this rule does not apply.
6. Respect individual course rules. Repair divots and ball marks.
7. Tournament scores will be posted by the club handicapper for members only. Scores from guests playing with the club need to be posted by individual golfer.
8. You must be a member of the NorCal Travelers Golf Club and must have participated in 4 regular tournaments to qualify for the yearly club membership comp. Also, you must be a member of NorCal Travelers Golf Club to receive the hole-in-one prize.
9. If you have any questions concerning your handicap or policy of the club, please contact one of the club officers.
10. Please contact the Tournament director at least 1 week prior to monthly tournament so we can notify the golf course with the number of players.

NorCal Travelers Golf Club Officers

Curt Wright – Handicapper/President

Melinda DeHerrera Rogers – Tournament Director/Treasurer/Secretary
